Symbol items

The shaded eye symbol was commissioned by the Partially Sighted Society in the early 1980s for use as its logo. In 1982 it was accepted by the Northern European Sector of the World Health Organisation as the International Symbol of Visual Disability.

The Society has used the symbol in various ways so that people have a way of indicating that they have a visual impairment and may need assistance.

Jigsaw Puzzles

Due to the 2019 Covid 19 pandemic, jigsaw puzzle sales exceeded supply and unfortunately we were in a situation where quickly ran out of stock and were unable to obtain more Jigsaw Puzzles from our supplier.

We have now, however, managed to obtain some Jigsaw Puzzles again, both in XXL (100 piece) and XL (250 piece) puzzles. We do still have a VERY limited stock of XL (500 piece) jigsaw puzzles left.

There is limited stock of the jigsaws illustrated. These are the only puzzles we have been able to obtain. Thank you for your understanding.
